

# WHAT TO BRING HIKING WITH YOUR DOG

1

Identification- Make sure your pup has a collar with tags that have your phone number. Having your pet microchipped is also a good idea.

2

Make sure you bring a leash! Most places require a leash and you can get hefty fines without one.

3

Poo Bags- it's important to always clean up after your pets.

4

Water & Snacks- Staying hydrated is important for both of you. Make sure to bring something to put the water in for your pup. Snacks help keep your pet nourished for long treks.

5

First Aid Kit -be prepared if something happens to you or your pup. Scan the QR code below to see how to build your own first-aid kit.
