

They don't call it the
**"happy vaccine
experience"**
for nothing

**NO NEEDLE STICKS AND NO SNEEZE-BACKS
MEAN MORE COMFORT.**

*Ask us about **Bronchi-Shield[®] ORAL** today.*

Your dog's health is important.

Help keep him safe, healthy and
happy with Bronchi-Shield[®] ORAL.

Keep your dog happy and healthy! Protect him from kennel cough* with Bronchi-Shield® ORAL, offering dogs the happy vaccine experience.

Kennel cough spreads from dog to dog. Protect yours.

Kennel cough is like whooping cough for humans — loud and uncomfortable, which is no fun for you or your dog. And, it can be picked up anywhere: doggy day care, dog parks, boarding facilities, you name it.

Kennel cough spreads fast and can be contracted with just brief contact. Bronchi-Shield® ORAL offers quick, safe, effective protection.

What is kennel cough?

One of the most common causes of kennel cough is bacteria called *Bordetella bronchiseptica*. Although it's easy to contract, your dog may not show signs of infection for 2-14 days.

Be on the lookout

- Dry, hacking cough (sounds like honking)
- Throwing up
- Runny nose
- In mild cases, dogs will act and eat like normal
- In severe cases, dogs may have:
 - Pneumonia
 - Loss of appetite
 - Fever
 - Lethargy

Boarding your dog?

Not without a kennel cough vaccine.

Because kennel cough spreads so easily, most boarding facilities require vaccination. That means if your dog isn't up-to-date on his vaccines, you may be skipping your trip.

Luckily, Bronchi-Shield® ORAL works fast and is safe, protecting your dog and allowing you to take that vacation.

Bronchi-Shield® ORAL is redefining kennel cough protection

Did you know?

Bronchi-Shield® ORAL is America's first oral kennel cough vaccine.* Since its launch, over 22 million dogs and counting have been given the Happy Vaccine Experience.

It's simple: No needle sticks or sneeze-backs. And, it works! One initial dose provides powerful protection, so you and your dog can do the things that make you both happy.

Talk to your vet today

Your dog's health is important. Help keep him safe, healthy and happy with Bronchi-Shield® ORAL.

Is your dog at risk for kennel cough?

Answer these questions to help your vet find out if Bronchi-Shield® ORAL* is right for your dog.

1. Do you take your dog for walks in areas with other dogs around? ☐ Y ☐ N
2. Do you take your dog to a groomer? ☐ Y ☐ N
3. Do you “dog sit” or have play dates with other dogs? ☐ Y ☐ N
4. Do you take your dog to the dog park? ☐ Y ☐ N
5. Do you board your dog? ☐ Y ☐ N
6. Does your dog go to doggy day care? ☐ Y ☐ N

Once completed, return this to your vet to talk about how to help keep your dog free from kennel cough.

*Bronchi-Shield® ORAL offers protection against one cause of kennel cough, *Bordetella bronchiseptica*.
